outersect – caldera
Hearts eye records

organic, emotive and poetic as a shed tear of joy. A spiritually motivated album featuring collaborations with many brilliant instrumentalists and vocalists combined with his own sound manipulation mastery, "caldera" is outersect's intuitive and accomplished attempt to reach out using psychedelic music.

troll scientists – useless science
space boogie productions

with sounds ranging from the ambient dub-tempo spectrum to ultra-psychedelic mashups of old-school sounds, this duo has the skills and talent to back it all up! This music is feral and funky and will whip you up into frothing dancefloor frenzies.

miraculix – frost bites ep
psytropic records

psytropic records is proud to present miraculix latest work with the ep "frost bites" containing four previously unreleased smashing tracks and one remix by psynina. It is massive, it is powerful, it is creative and innovative.

psynina – sexy secret
psytropic records

No other female psytrance artist in the world is that strong than psynina. she stands for massive and straight baselines, emotional and sensitive feelings, melo-dramatic story telling and honest, no-formula psytrance at a high production quality.
